SATISFACTORY ACADEMIC PROGRESS POLICY (SAP)

The following satisfactory progress policy is consistently applied to all students enrolled at this institution. It is printed in the catalog to ensure that all students receive a copy prior to enrollment. Only students who maintain satisfactory progress are eligible to receive Title IV financial assistance. This policy complies with guidelines established by the National Accrediting Commission of Career Arts and Sciences and the federal regulations established by the United States Department of Education.

ACADEMIC REQUIREMENTS/GRADING

Students are assigned written exams and a minimum number of practical experiences. Academic learning is evaluated at the end of each unit of study. Practical assignments are evaluated as completed and counted toward course completion when rated satisfactory. Comprehensive practical skills evaluations are conducted throughout the course of study and are evaluated according to the school and state board criteria. Students must maintain a cumulative grade average of 80%. Students are responsible for making up missed exams and incomplete assignments. The following grading system is used for all courses:

100% to 93%	A – Excellent mastery of course content
92% to 87%	B – Good mastery of course content
86% to 80%	C – Satisfactory mastery of course content
79% to 0 %	D – Unsatisfactory mastery of course content

EVALUATION PERIODS

Students will be evaluated for satisfactory progress once they clock the following actual hours and weeks:

SAP ATTENDANCE REQUIREMENTS

All students must maintain a minimum of 75% cumulative attendance of the total scheduled hours to be considered making satisfactory attendance progress. The attendance percentage is determined by dividing the hours attended by the total number of hours scheduled.

MAXIMUM TIME FRAME

The maximum allowable time with a 75% attendance rate for students to complete each course is 133% of the time it would take to complete the scheduled hours in the program. Students who exceed the maximum time frame will be terminated from their program.

Maximum time Allowed in Scheduled Hours

Students meeting minimum requirements for academics and attendance are considered to be making SAP until the next scheduled evaluation. Students who do not achieve the minimum standards of SAP are no longer eligible to receive Title IV funds unless the student has prevailed upon appeal of the determination and is placed on probation.

Students will receive an official progress report at the end of each evaluation period from the Director of Education or the student's appointed advisor. The report will indicate if the student is making satisfactory progress or unsatisfactory progress in that evaluation period in regards to attendance, academics and practical performance. This report will also indicate areas of strengths and weakness and how students can make improvements if needed.

For students who fail to meet SAP requirements at the end of an evaluation period, all of the following conditions must be met:

- The student must appeal the determination that they are not making satisfactory progress.
- The institution must determine that the student should be able to meet satisfactory progress standards by the end of the subsequent evaluation period or the institution will develop an academic plan for the student that, if followed, will ensure that the student is able to meet the satisfactory academic progress requirements by a specific point within the maximum timeframe established for the individual student.
- A student must have a basis to file an appeal. Acceptable reasons might include death of a relative, injury or illness to student, or other personal extenuating circumstances. The student must explain what caused the failure to meet SAP standards. They must also explain what has changed in their situation that will allow them to achieve SAP by the end of the next evaluation period. The student must submit all information relating to the appeal in writing within 15 days of being notified of unsatisfactory determination. All appeal documents will be kept in the student's file.
- Students that prevail upon appeal, will be placed on probation until the end of the next evaluation period, students are eligible to receive Title IV financial aid during this time. If the student meets the SAP requirements at the end of the probationary period, they will

be removed from probation and considered making SAP. If the student does not meet the requirements for SAP at the end of the probationary period, the student will no longer be eligible to receive Title IV funds and will be terminated from the program.

RE-ESTABLISHMENT OF SATISFACTORY PROGRESS

- Students may re-establish satisfactory progress by meeting the minimum requirements for attendance and academics by the end of the probationary period.
- Students re-entering the program after termination/withdrawal must wait a minimum of three months before being considered for re-enrollment and write a re-enrollment appeal.
- Upon appeal approval, the student will re-enter the program under the status of the previous enrollment, either satisfactory or on probation.

APPEAL PROCEDURE

- A student determined to not be making satisfactory progress may appeal the determination within 15 days of receiving an official Progress Report.
- The student must submit a written appeal with supporting documentation if applicable, stating the circumstances and basis for the appeal.
- They should also explain why they should be considered making satisfactory progress in light of the extenuating circumstances.
- The appeal will be documented by the school and a corrective plan of action or a termination decision will be given to the student.
- If the student prevails on the appeal, the student will be placed on probation.
- During the probationary evaluation period the student must meet minimum requirements for satisfactory academic progress.

INTERUPTIONS, COURSE INCOMPLETE, WITHDRAWALS

- If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence, hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation.
- Students wishing to officially withdraw from Cheeks Beauty Academy must provide the admission's office notification of their intent to withdraw. Notification may be made in person, in writing, email, by fax or by telephone. This notice will be the date of determination and the student's last day of physical attendance will be used for refund calculations.
- Students who withdraw prior to course completion and wish to re-enroll will return in the same academic progress status as at the time of the withdrawal.
- Students must re-enroll within five years of the last date of attendance to maintain all hours.
- Five years after the last date of attendance all hours expire, and students must begin as a new student.

NON-CREDIT AND REMEDIAL COURSES

Noncredit and remedial courses do not apply to this institution. Therefore, these items have no effect on the school's satisfactory progress standards.

CHANGE IN COURSE STUDY

If a student switches from one program of study to another program of study, their satisfactory academic progress is reviewed only for the program that the student is currently enrolled in. Academic grades and attendance records from prior program will not be included in the current satisfactory academic progress determination. If a student is currently enrolled in two programs, their satisfactory academic progress will be reviewed for each program independently.

TRANSFER HOURS/CREDITS

With regard to Satisfactory Academic Progress, a student's transfer hours that are accepted toward the student's educational program will be counted as both attempted and completed hours for the purpose of determining when the allowable maximum time frame has been exhausted. SAP evaluation periods are based on actual contracted hours at the institution. However, the school and state evaluation of hours will determine the number of hours needed to complete the program.

- A student's enrollment can and will be terminated by the school for the following:

If a student (or in case of a student under legal age, his/her parent or guardian) cancels his/her enrollment and demands his/her money back, in writing, within three business days of the signing of the enrollment agreement or contract. In this case all monies collected by the school shall be refunded, regardless of whether or not the student has actually started classes.
3. If a student cancels his/her enrollment after three business days of signing enrollment agreement or contract but prior to starting classes then he/she shall be entitled to a refund of all monies paid the school less an application fee of \$100.00.

- In case of illness or disabling accident or death in the student's immediate family, or other mitigating circumstances the school may consider a settlement which is reasonable and fair to both parties.
- Upon termination, the total balance becomes due and payable to the school immediately. In case of default, the total balance, court costs and reasonable attorney fees incurred by the Academy will be paid by the student in connection with such litigation.
- Refunds shall be made payable to the person and/or agency who actually paid the tuition. In the event, that the student has a student loan, refunds shall be made payable to the lending institution.
- If the school is permanently closed or no longer offering instruction after a student has enrolled, the school will provide a pro rata refund of tuition to the student or provide course completion through a pre-arranged teach out agreement with another institution.
- If a course is canceled subsequent to a student's enrollment, the school at its option shall provide a full refund of all monies paid or provide for the completion of the course at a later time.
- If the course is cancelled after the student has enrolled and instruction has begun, the school shall provide a pro rata refund for all students transferring to another school based on the hours accepted by the receiving school or provide completion of the course or participate in a teach-out agreement or provide a full refund of all monies paid.

- The Return of Title IV Funds calculation will be performed for the payment period the withdrawing student is receiving Federal Student Aid. This calculation is done before the school's refund policy is applied to the student's account. Any funds the school may have to return due to the calculation could result in a situation where school charges that were previously paid by Federal Student Aid might become a debit that the student will be responsible for paying.
- In the event a student withdraws, and no Title IV Aid was processed prior to the student's withdrawal date, a post-withdrawal disbursement offer may be made to the student or parent if a Plus Loan. A post withdrawal disbursement, a type of late disbursement, is Title IV Aid that was not disbursed before a student withdrew, but the student has earned based on a Return of Title IV Funds Calculation. A student or parent will have no less than 14 days to respond whether they choose to accept loan funds. Pell funds will automatically disburse and may be applied to any outstanding balance. If there is a remaining credit balance it will be disbursed to the student within 14 days.

RETURN OF TITLE IV FUNDS

- The Return of Title IV Funds and school refund policy calculations will be performed based on the student's last date of attendance.

- The Return of Title IV Funds calculation will be performed for the payment period the withdrawing student is receiving Federal Student Aid. This calculation is done before the school refund policy is applied to the student's account. Any funds the school may have to return due to the calculation could result in a situation where school charges that were previously paid by Federal Student Aid might become a debit that the student will be responsible for paying.
- In the event of a student withdrawal and no Title IV Aid was processed prior to the student's withdrawal date, a post-withdrawal disbursement offer may be made to the student or parent if a Plus Loan. A post-withdrawal disbursement, a type of late disbursement, is Title IV Aid that was not disbursed before a student withdrew, but the student has earned based on a Return of Title IV Funds Calculation. A student or parent will be notified in writing within 30 days of the date the school determined the student withdrew of any available post-withdrawal funds.

- A student is a "Title IV grant or loan recipient" for purposes of the return of funds requirements if before the student withdrew, the school received the student's Institutional Student Information Record (ISIR) or a Student Aid Report (SAR) and the ISIR/SAR has an official expected family contribution and the student received Title IV funds from any of the Title IV programs; Direct Loan Program, Federal Family Education Loan, Federal Pell Grant, Federal Perkins or the FSEOG.

 - we're not awarded any Title IV aid
 - never attends any classes in the payment period or period of enrollment
 - If the student does not attend any classes all Title IV funds will be returned.

DETERMINING THE AMOUNT OF TITLE IV FUNDS TO BE RETURNED

- To determine the earned aid for the payment or enrollment period:
 - 1) Divide the clock hours scheduled to have been completed as of the withdrawal date in the payment period by the total clock hours in the payment period.
 - 2) If this percentage is greater than 60%, then the student has earned all the aid for that payment or enrollment period.
 - 3) To determine the amount of aid the student has earned, multiply the amount of aid disbursed during the payment or enrollment period by the appropriate percentage from step one above.
 - 4) All unearned Title IV funds must be returned to the appropriate source.

This report is provided in compliance with federal law pursuant to the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, as amended. It provides students and employees of Cheeks Beauty Academy with information on security arrangements, policies and procedures; programs that provide education on such things as drug and alcohol abuse, awareness of various kinds of sex offenses, and the prevention of crime generally; and procedures to notify the students in the event of an emergency. The purpose of this report is to provide students and staff with information that will help them make informed decisions relating to their own safety and the safety of others. This report includes policies, procedures, and information prepared in cooperation with local law enforcement agencies. The campuses are located at 207 West 18th Street, Cheyenne, WY and 5010 Granite Street, Loveland, CO. As required by the Clery Act this report includes crime statistics related to each campus for the following years: 2020, 2021 and 2022. The Academy does not have residence halls or any kind of dormitory facilities.

II. Preparation of the Annual Security Report

This Annual report is prepared by Robert M. Each year an e-mail notification and posting to student information board is provided to all enrolled students that provides the web site (cheeksusa.com) to access this report. Staff will receive notification at the monthly staff meetings. Hard copies of the report may also be obtained at no cost at the admission office at both campuses.

IV. Policies on Reporting a Crime or Emergency

To report a crime:

For non-emergencies contact the appropriate campus security authority identified above or dial 911 (emergencies only). If you are the victim of a crime and do not want to pursue action within the Academy's structure or the criminal justice system, you may still want to consider making a confidential report. With your permission, the Campus authority can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the Academy can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime regarding a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for the institution. The Academy encourages accurate and prompt reporting of all crimes to the Campus authority's office or to local law enforcement authorities where the crime occurred.

Report a Hazard:

Students are encouraged to report hazardous conditions or safety concerns to the Campus authority.

V. Emergency Response and Evacuation Procedures

Upon confirmation of a significant emergency or dangerous situation involving an imminent threat to the health or safety of the campus community, the following communication resources and procedures will be activated: The Campus authority will confirm the magnitude and scope of the emergency, and/or evacuation procedures will be determined. Upon confirming that an event warrants immediate notification of the campus community, the staff will inform the campus on the best course of action to maintain their safety. Evacuation and/or shelter-in-place directions will be given. Should the incident and/or threat impact the larger community, the local law enforcement agencies or state agency will determine whether residents should be alerted. Local law enforcement agencies are primarily responsible for confirming that there is a significant emergency or threat on campus which could cause harm to the campus community. The campus authority or staff members, depending on the circumstances, also may be able to confirm certain types of emergencies. The campus authority or staff members in collaboration or individually or with other appropriate personnel, will determine who should be notified and will, without delay, and considering the safety of the community, determine the content of the notification and initiate notifying the campus, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency. When appropriate or required, the content of the notification will be determined in consultation with local authorities. Also, as appropriate, the notification will give guidance as to whether its recipients should shelter in place or evacuate their location. Campus authority or staff members will direct the issuance of emergency notifications, which will be accomplished using all means available, which include:

- Campus authority or staff members will visit all classrooms to provide emergency notification.
- Campus authority or staff members will post a copy of the emergency notification in each classroom, the student areas, and all entrances to the building.
- The emergency notification will be posted on the Cheeksusa.com web site.

All Cheeks Beauty Academy Campuses will test its emergency response and evacuation procedures at least once a year. The Campus authority will maintain a record of these tests and training exercises, including a description of them, the dates and times they were held and an indication of whether they were announced or unannounced. In connection with at least one such test, the Academy will distribute to its students and employee's information to remind them of the emergency response and evacuation procedures. Emergency response and evacuation procedures are part of all new student's orientation package.

VI. Timely Warnings

Reporting and notification:

Anyone with information warranting a timely warning should immediately report to Campus authority or staff member. Shortly after the incident is reported a decision regarding the issuance of a Timely Warning will be made on a case-by-case basis considering all the facts of the situation. The timing of the notification shall be based on the seriousness of the crime in relation to possible risk of compromising law enforcement efforts and the continuing threat to the students, employees, and guests of Cheeks Beauty Academy. Information included in the warnings may include, but are not limited to, the following information:

The Academy seeks to improve the security of its campuses and the members of its campus communities by periodically presenting educational programs to inform students and staff about campus security procedures and practices, to encourage students and staff to be responsible for their own security and the security of others and to inform them about the prevention of crimes. The Academy regularly schedules guest speakers and offers classes on personal safety and self-defense.

IX. Drug and Alcohol Policy

Cheeks Beauty Academy campuses are part of the **Drug-Free Schools and Communities Act**, which requires the implementation of a program to prevent the use and abuse of alcohol and illegal drugs by students, faculty, and staff. It is the policy of the Academy to prohibit the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance or alcoholic beverage during school time or on school premises. The Academy has a strict policy that all employees and students completely abstain, on campus, from the possession, use, or distribution of any alcohol or illegal drug and also abstain from the use, possession or distribution of any controlled legal substance without specific medical authorization. Staff or students known to be possessing, using, or distributing illegal drugs or alcohol on campus are subject to disciplinary action and, if appropriate, to legal sanctions pursuant too local, state, and federal law.

Educational programs and information regarding Crime Prevention and Drug and Alcohol Abuse and Sexual Assault Prevention are available to all students and staff through various local professional organizations and support groups. Additional information is attached to this Security Report distributed to all students and employees annually.

X. Policy Related to Sex-Related Offenses

Cheeks Beauty Academy prohibits discrimination based on sex in its educational programs including sexual harassment and acts of domestic violence, dating violence, sexual violence, and stalking. The Academy also prohibits any retaliation, intimidation, threats, coercion, or any other discrimination against any individuals exercising their rights or responsibilities pursuant to this policy. If you are a victim of a sexual assault, your priority should be to get to a place of safety. You should then obtain necessary medical treatment. Time is a critical factor for evidence collection and preservation. An assault should be reported directly to a Campus authority or staff member.

Filing a report will:

- ensure that a victim of sexual assault receives the necessary medical treatment and tests, at no expense to the victim.
- provide the opportunity for collection of evidence helpful in prosecution, which cannot be obtained later (ideally a victim of sexual assault should not wash, douche, use the toilet, or change clothing prior to a medical/legal exam).
- assure the victim has access to free confidential counseling from counselors specifically trained in sexual assault crisis intervention.

The Academy strongly advocates that a victim of sexual assault reports the incident in a timely manner to the local police. Time is a critical factor for evidence collection and preservation. The campus personnel will assist the victim in contacting the local police, although the victim also has the option to decline to make such notification.

Once a complaint of sexual violence (including sexual assault), domestic violence, dating violence, or stalking is made, the complainant has several options such as, but not limited to:

- contacting parents or a relative
- seeking legal advice
- seeking personal counseling (always recommended)
- pursuing legal action against the perpetrator
- pursuing disciplinary action
- requesting that no further action be taken

Cheeks Beauty Academy will provide written notification to victims about options for, and available assistance in, changing academic, transportation, and working situations. If victims request these accommodations and they are reasonably available they will be provided, regardless of whether the victim chooses to report the crime to campus security or local law enforcement.

If the accuser or accused elect to appeal the decision and/or sanction, the matter will then be heard by the Campus Authority. If it is not feasible for the Academy to come to a decision with respect to the allegation and the accuser pursues legal redress through the criminal or civil courts, the determination may be deferred pending the outcome of the legal process.

Depending upon the court action, the Academy may impose an appropriate sanction retroactive to the date of the sexual offense. Sanctions include, but are not limited to, no-contact order, suspension, probation, or termination from the program. The Academy will act responsibly to protect the welfare and privacy of the accused with respect to the disciplinary process.

- **Risks Associated with Substance Abuse**
- **Emergency Response Plan**

Health Risks of Alcohol Consumption

The consumption of alcohol may cause a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms—including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at a greater risk than other youngsters of becoming alcoholics. For more information, visit this link:

Risks Associated with Substance Abuse

Substance abuse may result in a wide spectrum of extremely serious health and behavioral problems. Substance abuse results in both short- and long-term effects upon the body and mind. There are specific health risks related to impairment and addiction. Alcohol and drugs are toxic to the body's systems. In addition to the problem of toxicity, contaminate poisonings often occur with illegal drug use. HIV infection associated with intravenous use is a prevalent hazard.

Acute health problems may include heart attack, stroke, and sudden death, which, in the case of some drugs, such as cocaine, can occur after first-time use. Long-lasting health effects of drugs and alcohol may include disruption of normal heart rhythm, high blood pressure, leaks of blood vessels in the brain, destruction of brain cells, permanent memory loss, infertility, impotency, immune system impairment, kidney failure, cirrhosis of the liver, and pulmonary damage. Drug use during pregnancy may result in fetal damage and birth defects causing hyperactivity, neurological abnormalities, and developmental difficulties.

Emergency Response Plan

The Academy recognizes that having a comprehensive safety and security plan in place allows students and staff to respond more quickly and effectively to incidents that may occur.

Fire Plan or Plan for Emergencies Requiring an Evacuation of the Building

- Drills are conducted at least once per year and involve all occupants—everyone should leave the building when the fire alarm sounds.
- Emphasis is placed on a safe, orderly evacuation rather than speed.
- Occupants should close (BUT NOT LOCK) doors as they leave their classroom/office and staff should direct students and clients to the appropriate exit.
- All building occupants should congregate in the parking lot across the street.
- Staff should check to make sure that everyone has evacuated the building and conduct a “head count” at the congregation area to assure that everyone has left the building.
- Re-entry of the building is contingent upon permission by a representative of the school administration or the Fire Department.
- Involve and train all staff members about the Fire Plan or Plan for Evacuation of the Building.

Bomb Threats

The person receiving the bomb threat call should engage the caller in a conversation to get as much information as possible:

- Ask what time the bomb is set to go off.
- Ask questions regarding the specific location, building, room, closet, locker, hallway, etc.
- Ask about the appearance of the bomb package.

- Listen for background noise, e.g., jukebox, radio, other people, traffic sounds, etc.
- Note whether the caller was calm or hysterical.
- Note whether the caller’s voice was young or old.
- Notify the director or the administrator in charge.
- The director or the administrator in charge will call the police and declare an emergency and may initiate the Evacuation of the Building Procedure.
- Students and staff are to remain outside of the building while police conduct the bomb search.
- Any student or employee who believes a box or other type of container to be suspicious should not touch the item and should immediately report it to the Campus Director or the administrator in charge.
- The area where the suspect device is located will be cleared by at least 200 feet.

Tornado Safety

- Evacuate classrooms to an adjacent hallway, if possible. If not possible, move students away from doors and windows and into the auditorium.
- Initiate the duck, cover, and hold procedure after evacuating the classroom.
- Students will be trained in the duck, cover and hold procedure during orientation as follows, if indoors:
 - DUCK – drop to the floor.
 - COVER – in a bent, crouched-over position, bury the face in the crook of the elbow, and place the other hand over the back of the neck.
 - HOLD – stay in the cover position.

Winter Storm

- The administration should monitor winter weather on a continual basis. In the event of threatening weather, the administration should monitor the internet, and/or commercial radio or television for local weather updates and predictions.
- Students will learn during orientation under what conditions the school would close for inclement weather and where they can become informed of a closure.

Flooding

- **School Building:** In the event of the flooding of a school building, the Evacuation Procedure will be followed and an alternative site for conducting the school operation will be established as soon as practicable by the administration.

Earthquakes

- Identify and assign individual responsibilities for staff following an earthquake (including accounting for and evacuation of students, injury control, and damage assessment)
- Involve and train all staff members about the earthquake safety plan, including location and procedures for turning off utilities and gas.

Protection of Students and Staff from Acts of Others

Assaults: The person observing an assault should follow the following procedures:

- Report the incident to the director or administrator in charge in the most expeditious manner (messenger, cell phone, etc.)
- Defuse the situation and seek to protect others but avoid risk of physical injury to anyone.
- Deal with immediate medical emergencies by offering first aid or summoning police as appropriate.

- Do not leave assailants or victims by themselves.
- Determine if it is appropriate to maintain custody of participants.
- Take the names of all parties, including bystanders or witnesses.
- Report all assaults to the police.
- Involve and train all staff members about the protection of students and staff from acts of others.

Trespassers – A trespasser is any person found on school premises who will not register as a visitor. All visitors should register at the front desk in the lobby.

- Greet the trespasser in a polite and non-threatening manner.
- Identify yourself as a school official.
- Inquire as to the purpose of his/her presence. If the person has a legitimate reason for being on campus, have them report to and register at the front desk in the lobby.
- Inform the trespasser of the visiting policy.
- If the trespasser gives no indication of voluntarily reporting to the office, notify law enforcement by calling 911.
- Observe the person's size, weight, clothing, age, and location to relay to the emergency operator.
- **DO NOT GET INTO AN ARGUMENT OR ATTEMPT TO CHALLENGE THE TRESPASSER.**
- Involve and train all staff members about the appropriate procedure for protecting students and staff from the possible threat of a trespasser.

Medical Emergencies

- If a medical emergency occurs, contact the director or to the administrator in charge.
- Do not leave the injured or sick person until the administrator in charge arrives.
- The administrator in charge will determine if medical emergency personnel need to be summoned.
- No staff member is to distribute any medication.
- Involve and train all staff members about the appropriate procedure to follow in the event of a medical emergency.

Safety and Emergency Equipment and Supplies

- **Fire Extinguishers:** All emergency equipment is to be kept in functioning order and checked on an annual basis.
- **First Aid Supplies:** The Campus Director's office will order and maintain an up-to-date inventory of the first aid supplies and kits. Notice of the location of such first aid kits will be posted.
